

## QUESTIONS & ANSWERS

### ROUTE B (clear spiral booklet)

#### Some notes on scoring the Rally questions

- Each question is worth 10 points for a total of 600 possible points.
- Some questions required 2 or 3 answers. Partial points were awarded for partially correct answers (the answers to these questions are underlined in the table below).

#### Some notes on scoring the slalom course at Towne Hall and apple peel & darts games:

- In order to be fair to all vehicle sizes, we allowed a range of 40-60 seconds within which the course had to be completed.
- Teams that completed it in less than 40 seconds got a 5 point bonus (only 4 teams accomplished this feat).
- Teams that took more than 60 seconds were assessed a one point penalty for every second above 60 (eg. 72 sec = 12 point penalty).
- The length of each participant's apple peel was divided by 2 and then attributed as points to their team.
- The points from both team members' darts were combined and added to the team's point total
